SUCCESSES OF THE LADIES.

ome Women Who Have Studied and Worked Hard in Science Pall Mall Gazette.

The great increase of the number of candidates for matriculation at the London University, which we lately noticed, has been fully sustained at the subsequent examinations in the several faculties, the results of which are just published. The ladies have done their part very well indeed, especially in the faculty of arts, which makes by far the largest contriation to the total number. In the faculty of arts there were last year 260 successful candidates, including forty-five ladies. This year, at the same examination, were successful candidates, sixty-one of these being ladies, and to these figures some slight addition may perhaps be nations. Of the male candidates one in lower. ave obtains honors, while of the female candidates the proportion is one in four. As might, perhaps, have been expected, notwithstanding Miss Ramsay's recent success at Cambridge, the ladies disdeguish themselves most in modern languages. Here four ladies gain double nonors. In Germany the ladies have Ellen Southwood, Clara Constance Ashworth, Fiorence Routledge, Margaret had taken the advice of Wall street it subject to 13% hands high had taken the advice of Wall street it would have bankrupted the country.

Killed While Resisting arrest. Special to the Gazeite.

San Antonio, Tex., Sept. 26.—Sheriff Lawis received a telegram this morning containing the information that Ben Sheeley was shot and killed near White Oaks, N. M., yesterday while attempting to escape from officers by whom he had been arrested. Sneeley was well known here, being a brother to Captain Joe Sheeley lately of the State Rangers and a native of this city. He was recently indicted for alleged theft of stock and it was on a capias from this county that this arrest had been effected. The telegram was signed by C. W. Grillin, a deputy of Uvalde county in whose hands the capias had been placed.
